

宏利環球精選(強積金)計劃 季度基金概覽

Manulife Global Select (MPF) Scheme Quarterly Fund Fact Sheet

As at December 31, 2025 | 截至 2025 年 12 月 31 日

重要事項:

- 在作出投資選擇前，您必須衡量個人可承受風險的程度及您的財政狀況。在選擇成分基金或預設投資策略時，如您就某一項成分基金或預設投資策略是否適合您（包括是否符合您的投資目標）而有任何疑問，請徵詢獨立財務及／或專業人士的意見，並因應您的個人狀況而作出最適合您的投資選擇。
- 預設投資策略中的宏利 MPF 核心累積基金及宏利 MPF 65 歲後基金（「預設投資策略成分基金」）及某些簡稱為退休基金的成分基金，其資產分配會隨時間而改變，因此涉及的投資風險及回報亦會隨時間而改變。預設投資策略成分基金或退休基金可能並非適合所有成員。投資前您應了解相關的風險，以及除年齡外，您亦須考慮其他因素，以及檢討個人的投資目標。
- 本計劃內的宏利 MPF 利息基金及宏利 MPF 穩健基金（統稱「保證基金」）各自只投資於由宏利人壽保險（國際）有限公司提供以保單形式的核准匯集投資基金。而有關保證亦由宏利人壽保險（國際）有限公司提供。因此，您於保證基金的投資（如有）將受宏利人壽保險（國際）有限公司的信貸風險所影響。有關信貸風險、保證特點及保證條件的詳情，請參閱強積金計劃說明書的第 3.4.2 條（宏利 MPF 穩健基金（「穩健基金」））、第 7.2.4(b) 條（宏利 MPF 穩健基金）、第 3.4.1 條（宏利 MPF 利息基金（「利息基金」））以及第 7.2.4(c) 條（宏利 MPF 利息基金）。
- 宏利 MPF 退休收益基金（「退休收益基金」）就分發派息、派息頻次及派息金額／派息率概不提供任何保證。派息可從基金的已變現之資本增值、資本及／或總收入中撥付，同時亦可從資本中記入／支付全部或部分費用、收費及開支，以致可作為派息的可分派收入增加。派息從資本中及／或實際上從資本中撥付代表提取部分原有投資或任何歸因於原有投資的資本增值。分發派息會導致退休收益基金於除息日的每單位資產淨值降低或調整。
- 65 歲以下的成員應注意，定期及頻繁地分發派息並將派息再投資於退休收益基金無可避免會涉及一段投資空檔，派息未有用作再投資，而重複地受間斷市場風險所影響（現時為每月）。就由於分發派息的特點，這些成員從退休收益基金得到的回報或會因派息再投資時，其每單位資產淨值可能已升或跌，而受到負面或正面的影響。因此，這些成員從退休收益基金得到的回報或會有別於有相類似投資組合而不包含此安排的成分基金，而分發派息的特點對這些成員或許不一定是有利。
- 投資涉及風險，並不是每一項成分基金均適合所有成員。您應考慮各項成分基金及預設投資策略所附帶的風險，您的投資／累積權益或會蒙受虧損。
- 在作出投資選擇前，您應參閱強積金計劃說明書內的計劃詳情，包括風險因素、費用及收費，而不應只根據本文件作出投資決定。
- 過往的基金表現不能作為日後表現的指標。投資涉及風險。有關計劃詳情，包括風險因素、費用及收費，請參閱強積金計劃說明書內的計劃詳情及主要計劃資料文件。

Important to note:

- You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of constituent funds or the Default Investment Strategy ("DIS"), you are in doubt as to whether a certain constituent fund or the DIS is suitable for you (including whether it is consistent with your investment objectives), you should seek independent financial and/or professional advice and make investment choices most suitable for you taking into account your circumstances.
- The asset allocation of the Manulife MPF Core Accumulation Fund and the Manulife MPF Age 65 Plus Fund ("DIS CFs") in the DIS and some of the constituent funds which are referred to as the Retirement Funds will change over time and hence the risk profile and return will also change over time. The DIS CFs or the Retirement Funds may not be suitable for all Members. You should understand the relevant risks involved before investment and consider factors other than age and review your own investment objectives.
- The Manulife MPF Interest Fund and the Manulife MPF Stable Fund (collectively the "Guaranteed Funds") under the Scheme each invests solely in approved pooled investment funds in the form of insurance policy provided by Manulife (International) Limited. The guarantee is also given by Manulife (International) Limited. Your investments in the Guaranteed Funds, if any, are therefore subject to the credit risks of Manulife (International) Limited. Please refer to sections 3.4.2 (Manulife MPF Stable Fund (the "Stable Fund")) and 7.2.4(b) (Manulife MPF Stable Fund) and sections 3.4.1 (Manulife MPF Interest Fund (the "Interest Fund")) and 7.2.4(c) (Manulife MPF Interest Fund) of the MPF Scheme Brochure for details of the credit risks, guarantee features and qualifying conditions.
- The Manulife MPF Retirement Income Fund (the "Retirement Income Fund") does not guarantee distribution of dividend, the frequency of distribution, and the dividend amount/yield. Dividends may be paid out of the realized capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital, resulting in an increase in distributable income available for dividend distribution. Payment of dividends out of capital and/or effectively out of capital represent a withdrawal of part of the original investment or from any capital gains attributable to that original investment. Distribution of dividends will result in an immediate decrease or adjustment in the net asset value per unit of the Retirement Income Fund on the ex-dividend date.
- Members who are below age 65 should note that the regular and frequent distribution of dividends and reinvestment of such dividends into the Retirement Income Fund will inevitably involve an investment time-lag during which dividends are not reinvested and it is subject to out-of-market risk on a recurring basis (currently, on a monthly basis). With the feature of dividend distribution, the return of the Retirement Income Fund for these Members may be impacted negatively or positively as its net asset value per unit may have gone up or down at the time when dividends are reinvested. Therefore the return of the Retirement Income Fund for these Members may deviate from that of a constituent fund with similar investment portfolio without such arrangement and may not always be advantageous to these Members.
- Investment involves risks and not each of the constituent funds would be suitable for everyone. You should consider the risks associated with each of the constituent funds and the DIS and your investments/accrued benefits may suffer loss.
- Before making your investment choices, you should read the MPF Scheme Brochure for details including risk factors, fees and charges of the Scheme. You should not make your investment decision based on this document alone.
- Past performance is not indicative of future performance. Investment involves risks. Please refer to the MPF Scheme Brochure and Key Scheme Information Document for details including risk factors, fees and charges of the Scheme.

評論 Commentary

宏利 MPF 康健護理基金

- 環球股市在第四季錄得穩健升幅，有助主要指數連續第三年實現雙位數回報。由於市場憂慮人工智能相關股票或現「泡沫」，本季前半段表現有好有壞。然而，其後市場顯著反彈，並於年底前創下歷史新高。通脹持續回落，使美國聯儲局得以兩度減息 25 個基點，同時標誌著其多年來的資產負債表縮減計劃亦告一段落。此外，企業盈利強勁，環球經濟亦維持正增長。與全年走勢一致，歐洲及新興市場表現領先，而美國及亞洲已發展市場則表現落後。醫療保健股在期內上升，表現優於 MSCI 世界指數。製藥及生命科學工具與服務分類行業表現突出，但醫療保健供應與服務、醫療保健設備和用品及生物技術分類行業則表現落後。

宏利 MPF 亞太股票基金

- 2025 年，在不確定性增加的背景下，亞洲（日本除外）股市表現有好有壞。生成式人工智能（gen AI）投資快速增長，導致交易擁擠及市場集中度偏高，其中北亞地區的生成式人工智能供應鏈企業尤其明顯。相比之下，南亞市場（包括印度、印尼、泰國及菲律賓）表現落後，因政治不明朗與內需遜於預期拖累增長及投資者信心。展望 2026 年，我們認為亞洲市場的投資機會將由以下因素決定：
 1. 中美之間的科技競爭
 - 預期將更趨激烈，尤其在半導體、自動駕駛、人形機械人、無人機，以及能源與資源安全領域。我們預期中國內地將加快在上述關鍵領域實現供應鏈本土化，而美國則會借助日本、南韓及台灣的生產能力，以實現其科技進步、能源充足與軍用造船的目標。
 2. 美國關稅影響
 - 我們預期關稅相關成本將如何在製造商、品牌方與消費者之間分攤，以及其對企業利潤率、需求、通脹與利率前景的影響，將會漸趨清晰。
 3. 流動性狀況
 - 受以下因素支持，流動性料將保持充裕：
 - 寬鬆的利率環境。然而，我們認為聯儲局的減息週期已大致上被市場消化。在生成式人工智能推動的強勁需求下，關稅傳導帶來的通脹風險及半導體和電力供應受限，將令進一步減息面臨挑戰；以及
 - 實施經修訂的強化版附加槓桿率（eSLR）對維持美國國債市場流動性，並讓美國全球系統重要性銀行（GSIbS）在承壓期間有效管理資產負債表至關重要。
 4. 科技行業表現領先的可持續性
 - 2025 年亞洲股市及貿易出口的強勁表現主要受生成式人工智能相關的需求所推動。若要維持此升勢，營收與盈利增長必須超越已偏高的預期。科技硬件領域將難尋額外的正面利好因素。因此，我們認為從大量的生成式人工智能基建投資，轉向可改變消費者行為與消費模式的產品及應用程式開發，將帶來更大機遇。
- 我們預期 2026 年亞洲（日本除外）股市將再度呈現不平衡的表現。北亞市場可望憑藉科技行業的快速發展保持正面走勢，而南亞股市儘管面臨短期增長不利因素，其風險回報配置正變得愈發吸引。

宏利 MPF 中華威力基金

- 大中華地區股市小幅下跌（-0.8%），主要受中國（-6.5%）拖累。台灣持續上漲（+9.4%），由科技板塊領漲；而香港在資金輪動至優質落後板塊的情況下依然保持韌性（+5.7%）。
- 中國股市在第四季度每月均小幅下跌，但 2025 年全年仍錄得顯著的年度漲幅。
- 地緣政治緊張局勢在本季初升溫，北京限制稀土出口，促使美國總統特朗普威脅對中國商品徵收 100% 關稅，並對關鍵軟件實施新的出口管制。韓國 APEC 峰會上的外交努力取得了漸進進展，中國承諾大量購買美國大豆，雙方同意將關鍵出口管制延遲一年。
- 國內方面，北京政策繼續聚焦於穩定和自給自足，新五年規劃優先考慮國內技術發展、供應鏈韌性和能源獨立。季中數據顯示投資收縮加深，部分原因是數據重述及反內卷運動。房地產市場面臨新風險，萬科提出債券展期，預計北京將傾向於去槓桿而非救助。如果壓力加劇，可能會考慮如按揭補貼等需求端措施。
- 年底板塊輪動明顯，A 股科技硬件板塊強勁反彈，推動 A 股在本季度明顯跑贏離岸市場。
- 台灣股市持續上行，受美國主要 CSP 資本支出上調後一致性盈利預期修正的推動。同時，本季度 AI 技術供應鏈內部出現顯著板塊輪動，尤其是在 Google 於 11 月推出 Gemini 模型後，市場聚焦於 TPU 架構及其供應鏈潛在受益者。“短缺”和“漲價”仍是市場主題，隨著供需失衡持續，記憶體現貨價格大幅上漲。
- 我們預計中國將進入“艱難前行”階段，投資（特別是房地產相關板

Manulife MPF Healthcare Fund

- The world equity markets registered solid gains in the fourth quarter, helping the major indexes record their third consecutive year of double-digit returns. Performance was uneven over the first half of the quarter amid concerns that artificial intelligence (AI)-related stocks were in a “bubble.” However, the market staged an impressive rebound and went on to achieve new all-time highs by year-end. A continued decline in inflation allowed the US Federal Reserve (Fed) to enact two quarter-point interest rate cuts and wind down its multiyear effort to reduce its balance sheet. In addition, corporate earnings were robust, and world economic growth remained positive. Consistent with trends in place throughout the full year, Europe and emerging markets led the way, while the US and developed Asia lagged. The healthcare sector increased during the period and performed well, as measured by the MSCI World Index. The pharmaceuticals and life sciences tools and services sub-sectors notably performed, while the healthcare providers and services, healthcare equipment and supplies, and biotechnology sub-sectors lagged.

Manulife MPF Pacific Asia Equity Fund

- In 2025, equity markets across Asia ex-Japan delivered uneven performance against a backdrop of heightened uncertainty. Rapid growth in generative artificial intelligence (gen AI) investments drove crowded trades and high market concentration, particularly among companies in North Asia's gen AI supply chain. In contrast, South Asian markets—including India, Indonesia, Thailand, and the Philippines—lagged as political uncertainty and weaker-than-expected domestic demand weighed on growth and investor confidence. Looking ahead to 2026, we believe investment opportunities across Asian markets will be shaped by the following factors:
 1. US-Chinese Mainland Technology Competition Rivalry
 - Between the US and Chinese Mainland is expected to intensify, particularly in semiconductors, autonomous driving, humanoid robotics, drones, and energy and resource security. We anticipate Chinese Mainland to accelerate its efforts to localize its supply chain in these critical areas, while the US leverages productive capacities in Japan, Korea, and Taiwan to achieve its goals of technology advancement, energy sufficiency, and military shipbuilding.
 2. Impact of US Tariffs
 - We expect greater clarity on how tariff-related costs will be distributed among manufacturers, brand owners, and consumers, and the resulting implications for corporate margins, demand, inflation, and interest rate outlook.
 3. Liquidity Conditions
 - Liquidity should remain ample, supported by:
 - An accommodative interest rate environment. That said, we believe the US Federal Reserve's (Fed) cutting cycle is nearly fully priced, and further cuts will be challenging given inflation risks from tariff pass-through and supply constraints in semiconductors and electricity amid strong gen AI-driven demand; and
 - The implementation of the modified Enhanced Supplementary Leverage Ratio (eSLR), which will be critical for maintaining treasury market liquidity and enabling US global systemically important banks (GSIbS) to manage balance sheets effectively during periods of stress.
 4. Sustainability of the Tech Sector's Outperformance
 - The strong performance of Asian equities and trade exports in 2025 was largely fueled by gen AI-related demand. For this rally to endure, revenue and earnings growth must surpass already lofty expectations. Incremental positive catalysts in tech hardware will be harder to find. We therefore see greater opportunities in the transition from heavy gen AI infrastructure investment toward the development of products and applications that could transform consumer behavior and spending patterns.
- We anticipate another year of uneven performance across Asia ex Japan equities in 2026. North Asia is likely to maintain its momentum, driven by rapid advancements in the technology sector, while the risk-reward profile of South Asian equities is becoming increasingly attractive despite near-term growth headwinds.

Manulife MPF China Value Fund

- Greater China equities marginally declined (-0.8%), dragged by China (-6.5%). Taiwan continued to rise (+9.4%), led by Technology, while Hong Kong remained resilient (+5.7%) amid rotation towards quality laggards.
- Chinese equities edged down in each month of the fourth quarter; nonetheless, ending 2025 with a meaningful calendar year gain.
- Geopolitical tensions rose early in the quarter as Beijing restricted rare earth exports, prompting US President Trump to threaten 100% tariffs on Chinese goods and new export controls on critical software. Diplomatic efforts at the APEC summit in South Korea led to incremental progress, with China pledging substantial soybean purchases from the US, and both sides agreeing to delay key export controls for a year.
- Domestically, Beijing's policy continued to focus on stability and self-sufficiency, with the new Five-Year Plan prioritizing domestic technological development, supply chain resilience, and energy independence. Mid-quarter data showed a deepening investment contraction, partly due to restated figures and the anti-involution campaign. The housing market faced renewed risks, highlighted by Vanke's proposed bond extension, with Beijing expected to favor deleveraging over bailouts. If stress intensifies, demand-side measures like mortgage subsidies may be considered.
- Sector rotation was evident towards the end of the year, with A-share technology hardware names rallying strongly and driving meaningful outperformance of A-shares over offshore names over the quarter.
- Taiwan equities continued to advance, driven by positive consensus earnings revisions following the upward revisions for capex by the major U.S. CSPs. At the same time, the quarter saw notable sector rotation within the AI technology supply chain, particularly after Google's November launch of the Gemini model, which highlighted its TPU-based architecture and drew market focus to potential beneficiaries across the TPU supply chain. “Shortage” and “price hike” remained prominent market themes, as memory spot prices surged amid ongoing supply-demand

塊)和消費均不會出現實質性復甦。萬科的實質違約凸顯了需求疲弱。中國 11 月宏觀數據亦顯示國內活動進一步放緩，隨著補貼效應消退，零售銷售增速減慢。強勁的出口成為重要支撐。政策基調依然克制，政府增長目標似乎可達成，暫無重大刺激的迫切性。不過，近期官方評論暗示 2026 年房地產政策可能更為果斷。此外，部分行業供需動態有所改善，通縮壓力減弱。歷史顯示，宏觀環境偏軟未必限制股市表現，尤其在估值壓縮、投資者持倉偏輕時更是如此。當前更重要的是行業分化加劇：傳統行業面臨結構性挑戰，而多個高速增长領域仍提供扎實的自下而上機會。

- 台灣方面，預計 2026 年將出現溫和放緩，主要受高基數效應及全球不確定性影響，可能影響全球貿易量。2026 年最明顯的特徵或將是“K 型”分化，科技板塊持續繁榮，傳統行業壓力加大。儘管科技產品大多獲豁免，台灣機械、紡織、塑膠等傳統行業的中小企業可能因關稅面臨更高成本及產能規劃不確定性。至於科技板塊，AI 泡沫及歷史高估值的討論可能延續至 2026 年。我們預計技術升級和規格迭代將持續支持台灣供應鏈。重點關注指標包括新產品發布、項目執行及產能擴張。

宏利 MPF 香港股票基金 / 宏利 MPF 恒指 ESG 基金

- 展望 2026 年，我們基於以下原因而看好大中華股市：
 - 穩定的經濟：**中美關稅及地緣政治局勢已趨向穩定，有利大中華區股市發展。中美雙方同意暫停追加對等關稅（即延遲一年）及航運業貿易調查，這些均為利好因素，亦鞏固了我們認為中美日後展開更多對話可能有助達成更佳結果的觀點。此外，與中國以外的地區比較，相對關稅差距亦有所收窄。
 - 資金流有利中國/香港股市：**較低的利率環境及美元可能偏軟，均有機會帶動更多資金流向新興市場，利好大中華區股市。
 - 中國的「十五五」規劃：**中國的「十五五」規劃為未來 5 年確立清晰的政策與戰略方向，可望推動下一階段的增長。
 - 通縮壓力憂慮減緩：**服務消費與以舊換新政策推動今年的消費物價指數增長，若國內需求進一步改善，我們預期消費物價指數將繼續上升。
 - 香港地產市場出現復甦跡象：**香港方面，以下三項因素帶動香港的地產行業出現復甦跡象：(1) 預期美國聯儲局將會減息（目前為正利差）；(2) 成交量有所改善；及 (3) 價格溫和回升。我們看好回購能力強且股息率吸引的企業。
- 隨著關稅雜音消退，我們認為中國在科技、工業、能源、醫療保健，以及新興、大眾與體驗式消費等領域，將呈現更多元化的投資機會。

宏利 MPF 日本股票基金

- 受年底日圓進一步走弱所帶動，日本股市於 2025 年第四季進一步上升 9.5%（按日圓計值）及 3.5%（按美元計值）。人工智能與國防的市場主題繼續成為推動因素，因投資者聚焦於人工智能數據中心的支出增長及持續的地緣政治風險。由於投資者質疑人工智能行業內支出的循環性，人工智能相關股票在 11 月有所回落。隨著高市早苗當選日本新任首相，市場於 12 月重新聚焦於增長主題。其目標是透過擴張性財政政策推動日本經濟進一步增長。通脹維持在接近 3% 的水平，實質經濟再一季錄得正增長。這促使日本央行（BoJ）在 12 月最終表決通過再次加息 0.25%。
- 本季表現最佳的行業為金屬業、建築業與採礦業。有色金屬在 2025 年表現尤為突出，因投資者在該行業中發掘到不少「隱藏瑰寶」，而這些公司的部分業務正是為人工智能與數據中心提供必要零件。與此同時，遊戲業、電訊業及航空業拖累本季的表現。

宏利 MPF 歐洲股票基金

- 歐洲股市在 12 月份上升。市場對美國聯儲局減息的期望升溫，帶動市場情緒向好，於月初與美國股市同步上升。正面的基本因素及歐洲央行於 2026 年加息的機會下降，亦有利於投資情緒。烏克蘭戰爭一度出現停火的曙光，但隨著月內舉行進一步談判，相關的希望逐漸消退。歐盟同意在未來兩年向烏克蘭提供 900 億歐元的貸款，但歐洲領袖未能就是否使用已凍結的俄羅斯資產達成共識，擔心遭到俄羅斯報復。此外，歐洲委員會根據《數碼服務法》對馬斯克的「X」平台罰款 1,200 億歐元。
- 歐元區截至 11 月份止十二個月的通脹維持在 2.1% 不變，較初步估計的 2.2% 有所下調。歐洲央行連續第四次會議維持利率於 2.0% 不變。歐元區第三季國內生產總值增長從原先估計的 0.2% 上調至 0.3%。此外，歐洲央行將 2025 年的增長展望由早前預測的 1.2% 上調至 1.4%。歐洲央行行長拉加德強調歐元區經濟穩健且內部需求強勁，但她亦警告國際市場持續波動。

imbalances.

- We anticipate a period of economic “muddling through” for China, with no material recovery expected in investment—particularly in real estate-related sectors—and consumption. Vanke’s effective default highlighted weak underlying demand. China’s November macro data also indicated a further moderation in domestic activity, with retail sales slowing as the tailwind of subsidies faded. Robust exports provided an important offset. The policy tone remains measured, with no urgency for major stimulus as the government’s growth targets appear to be achievable. That said, recent official commentary hints at a potential shift towards more decisive housing policy in 2026. Further, there are some signs of improved supply and demand dynamics in select sectors, with deflationary pressures appearing less severe. History shows that softer macro conditions have not necessarily constrained equity performance, particularly when valuations are compressed, and investor positioning is light. What matters more today is the growing divergence across industries: while many traditional sectors face structural challenges, several fast-expanding areas continue to offer solid bottom-up opportunities.
- In Taiwan, a moderate deceleration is generally expected in 2026, due to a high base effect and emerging global uncertainties that may impact global trade volumes. The defining characteristic of 2026 will likely be a “K-shaped” divergence, where the technology sector continues to thrive while traditional industries face mounting pressure. While tech goods have largely been exempted, Taiwan’s SMEs in traditional sectors such as machinery, textiles, and plastics may struggle with higher costs and uncertainties around capacity planning due to tariffs. As for the technology sector, debate over a potential AI bubble and historically high valuation multiples may persist into 2026. We expect ongoing technology migration and specification upgrades to remain supportive for the Taiwan supply chain. Key indicators to watch include new product launches, project execution, and capacity expansion.

Manulife MPF Hong Kong Equity Fund / Manulife MPF Hang Seng Index ESG Fund

- Going into 2026, we maintain a positive view in Greater China’s equity markets due to the following reasons:
 - Stabilizing economy:** Tariff and geo-political issues between China and the US have stabilized, which is favorable for Greater China’s equity markets. The China and the US agreed to a pause on additional reciprocal tariff (i.e., delay for 1-year) and shipping industry trade investigations, and this is positive, which reinforces our view that more potential dialogue between China and the US may drive better outcomes. Also, the relative tariff difference vs. other non-China geographic regions have also narrowed.
 - Supportive fund flows for China/Hong Kong equity markets:** A lower rate environment and potential weaker USD may drive more fund flows to emerging markets i.e., positive for Greater China equity market.
 - China’s 15th 5-year plan:** China’s 15th 5-year plan lays out clear policy and strategic directions over the next five years which should drive the next leg of growth.
 - Less concerning deflationary pressure:** Service consumption and trade-in policies have positively fueled consumer price index (CPI) growth this year and we expect CPI to trend higher should domestic demand improve further.
 - Green shoots in the Hong Kong property market:** Elsewhere in Hong Kong, Hong Kong’s property sector shows signs of recovery, driven by three factors (1) expectation of the US Fed’s rate cuts (now with positive carry), (2) improving transaction volumes, and (3) modest price recovery. We favor companies with strong buyback ability with supportive dividend yields.
- With tariff noises subsiding, we believe there are more various investment opportunities for China in technology, industrials, energy, healthcare and new/niche/experienced consumption.

Manulife MPF Japan Equity Fund

- The Japanese equity market rose a further 9.5% over the fourth quarter of 2025 in JPY terms and 3.5% in USD terms as the yen weakened further towards the end of the year. The market themes of artificial intelligence (AI) and defense continued to be the driving factors as investors focused on the growth in spending on AI data centers and ongoing geopolitical risks. There was some pullback in November on AI-related stocks as investors questioned the circular nature of spending within the AI sector. The focus on growth revived in December as Sanae Takaichi was selected as the new prime minister of Japan. Her aim will be to drive further growth in Japan through an expansionary fiscal policy. Inflation remained close to 3% and real economic growth was positive for another quarter. This led the Bank of Japan (BoJ) to finally vote in favor of a further 0.25% rate hike in December.
- The best performing sectors over the quarter were metals, construction, and mining. The non-ferrous metals has been significantly performing in 2025 as investors have been finding “hidden gems” within this sector where a part of the company’s business is providing necessary components for AI and data centers. Meanwhile games, telecoms, and airlines detracted over the quarter.

Manulife MPF European Equity Fund

- European equities moved higher in December. Markets tracked Wall Street gains early on, as mounting hopes of a rate cut from the US Federal Reserve bolstered sentiment. Positive fundamentals and the diminishing likelihood of rate rises from the European Central Bank (ECB) in 2026 also lifted sentiment. Tentative hopes for a ceasefire in Ukraine continued to mount and wane as further negotiations took place over the month. The European Union agreed a EUR 90 billion loan to Ukraine over the next two years, although leaders were unable to agree on using frozen Russian assets in fear of retaliation from Moscow. In addition, the European Commission fined Elon Musk’s X EUR 120 billion under the Digital Services Act.
- Inflation in the euro zone remained unchanged at 2.1% in the 12 months to November, revised down from preliminary estimates of 2.2%. The ECB held rates steady at 2.0% for the fourth consecutive meeting. Third-quarter GDP growth in the euro-zone was revised up to 0.3% from a previous estimate of 0.2%. In addition, the ECB revised up its growth outlook for 2025 to 1.4% from an earlier projection of 1.2%. ECB President Christine Lagarde emphasised the resilience euro-zone economy and robust domestic demand but warned of continued international volatility.
- German equities rose in December and outperformed the regional and global indices. The benchmark DAX 40 Index fell early on after the German Parliament unveiled a contentious new

- 德國股市在 12 月份上升，表現優於地區及環球指數。德國國會提出一項備受爭議的新兵役模式，包括強制審查所有 18 歲男性是否適合服役，觸發基準 DAX 40 指數在月初下跌。在截至 11 月份止十二個月，德國通脹率維持在 2.3%，而同期的生產者價格指數則下跌 2.3%，低於 10 月份的 1.8%，是生產者價格指數連續第九個月出現按年通縮，亦是 2024 年 4 月以來的最大跌幅。正面數據方面，歐洲經濟研究中心（ZEW）的德國經濟信心指數較 11 月份的 38.5 大幅上升，錄得遠超預期的 45.8，創下五個月高位。
- 英國股市在 12 月份高收，富時 100 指數創 2009 年以來最佳全年表現，投資者對上月秋季預算案的憂慮有所淡化。然而，經濟基本因素仍然不振。在截至 10 月份止三個月，失業率升至 5.1%，為 2021 年初以來的最高水平，而英國經濟在 10 月份意外收縮 0.1%。捷豹路虎在 9 月份遭受網絡攻擊而被迫停工，導致 10 月份的數據繼續受影響。按年通脹率受截至 10 月份止年度的 3.6% 回落至 11 月份的 3.2%，但仍然連續第十四個月高於英倫銀行的 2% 目標。英國央行貨幣政策委員會的九名委員以 5 票對 4 票的比數通過進一步下調基本利率 25 點子至 3.75%，為 2023 年 2 月以來的最低水平。

宏利 MPF 北美股票基金

- 美國股市於 2025 年第四季錄得正回報，為連續三年錄得雙位數年度升幅的表現畫上句號。股市受惠於企業基本因素紮實、經濟穩健及利率下降。聯儲局將政策利率下調 50 個基點（0.50%），令投資者相信當局有意為正在放緩的勞動力市場提供支持。美國股市於 10 月及 11 月錄得可觀升幅後，12 月走勢大致平穩。原因在於投資者一方面對經濟「軟著陸」持樂觀看法，另一方面則需消化聯儲局偏鷹派的前景指引（該局暗示 2026 年僅會再減息一次）。部分投資者於步入新一年前獲利套現或調整持倉，對美股造成輕微拖累。在本季最後數週，部分投資者從人工智能相關股及超大型股轉向小型股、中型股與價值型股。在廣泛基準的標準普爾 500 指數（S&P 500）中，醫療保健業本季表現領先，而公用事業與房地產業則表現落後。

宏利 MPF 進取基金 / 宏利 MPF 增長基金 / 宏利 MPF 穩健基金 / 宏利 MPF 國際股票基金 / 宏利 MPF 智優裕退休基金 / 宏利 MPF 2025 退休基金 / 宏利 MPF 2030 退休基金 / 宏利 MPF 2035 退休基金 / 宏利 MPF 2040 退休基金 / 宏利 MPF 2045 退休基金 / 宏利 MPF 退休收益基金

- 展望 2026 年，我們預期宏觀前景將漸趨明朗，增長前景亦有望改善。經歷動盪的 2025 年後，貨幣政策逐步寬鬆、當局推出針對性的財政支持，加上企業適應新的貿易與政策格局，這些因素應有助於下半年改善風險情緒。短期內，隨著市場仍需消化通脹膠著、局部勞動力市場放緩，以及特朗普第二任期政策次序的不確定性，波動或將持續。我們的基本展望仍偏向樂觀：通脹逐步回落至目標水平、政策利率隨時間下降，且盈利增長保持穩健，惟各個地區與行業仍存在差異。地緣政治引致碎片化、關於人工智能行情的爭論、能源轉型及聯儲局人事變動，很可能令不確定性指標在 2026 年全年維持高位。
- 已發展市場方面，我們預期經濟將有序放緩，並於年末轉盛。美國的 2026 年開局偏弱，但隨著此前寬鬆政策與財政措施（如資本支出分攤、企業稅減免及住戶補貼）的滯後影響逐步顯現，經濟增長速度料將加快，投資亦有望擴展至人工智能基建以外的領域。歐元區的週期性反彈或會延續，其中促進增長改革與德國主導的刺激措施帶來上行風險，惟法國政治與財政不利因素及外部需求放緩將抵銷部分正面影響。雖然寬鬆政策可局部緩解，但英國仍處於滯脹狀態——增長低於趨勢水平，且服務業通脹膠著。日本維持溫和復甦，通脹逐步邁向 2%，工資增長亦向好。新興市場方面，隨著環球製造業及貿易逐步回升、美元走弱及供應鏈適應，基本因素有所改善。中國增長呈現失衡格局，外部穩健與內需疲弱及房地產行業調整形成對比。中國人民銀行的支持性政策及可能提前實施的財政措施，應有助實現約 5% 的增長目標，但仍需密切關注產能過剩與持續的通縮壓力。整體新興市場中，內需主導型經濟體的處境在 2026 年初將優於出口型經濟體。
- 我們仍然預期聯儲局將於 2026 年減息 2 至 3 次，而政策利率最終或於年底前趨近 3% 左右。此舉旨在在依然過高的通脹（雖有所緩和但仍高於趨勢）與正在降溫的勞動力市場之間取得平衡。鮑威爾主席任期將於 2026 年第二季屆滿，領導層交接將帶來不確定性，但機構的獨立性最終應可得以維持。歐洲央行（ECB）的政策立場似已處於或接近中性，鑑於通脹接近目標且經濟活動趨穩，很可能在 2026 年大部分時間內保持不變。中國人民銀行同樣持謹慎態度。英倫銀行（BoE）正面臨艱難的取舍——就業疲弱與通脹膠著。我們預期其將逐步向中性利率（約 3%）回落，此過程或將持續至 2027 年初。日本則屬例外。政策正常化持續推進，隨著利率邁向中性水平，將逐步加息且收益率曲線趨於平緩。新興市場方面，大部分寬鬆週期已接近尾聲。
- 通脹已大致恢復正常，但核心通脹膠著及增長持續改善意味著減息步伐應保持審慎，且需以外匯穩定及外部融資條件為前提。整體而言，此前寬鬆政策的滯後影響應可在 2026 年期間繼續支持新興市場增長。
- 財政政策正日益成為各國政府支持增長的重要工具。在美國，即使仍需警惕長期財政赤字格局，但《大而美法案》中的企業激勵措施（全額資

military service model, including the mandatory screening of all 18-year-old men for suitability. German inflation held steady at 2.3% in the 12 months to November while producer prices fell by 2.3% over the same period, down from 1.8% in October and marking the ninth consecutive month of annual producer price deflation and the steepest pace of decline since April 2024. More positively, the ZEW Indicator of Economic Sentiment for Germany rose sharply from November's 38.5, trouncing estimates to hit a five-month high of 45.8.

- UK equities closed December higher, with the FTSE 100 Index rounding its best year since 2009 as concerns about last month's Autumn Budget faded. However, economic fundamentals remained lacklustre. Unemployment rose to 5.1% in the three months to October – the highest level since early 2021, while the UK economy unexpectedly contracted by 0.1% in October, with the shutdown at Jaguar Land Rover after September's cyberattack continuing to impact the October figure. Annual inflation fell from 3.6% in the year to October to 3.2% in November but remained above the Bank of England's (BoE's) 2% target for the 14th consecutive month. The BoE's nine-member Monetary Policy Committee voted 5–4 to cut the base rate by a further 25 basis points to 3.75%, the lowest level since February 2023.

Manulife MPF North American Equity Fund

- US stocks produced a positive return for the fourth quarter of 2025, marking the end of three straight years of double-digit annual gains. Stocks were buoyed by solid corporate fundamentals, a resilient economy, and falling interest rates. The US Federal Reserve (Fed) cut its policy interest rate by 50 basis points (0.50%), reassuring investors that it intended to support a cooling labor market. After posting solid gains in both October and November, US stocks were essentially flat in December as investors balanced optimism over a "soft landing" for the economy against a hawkish outlook from the US Fed, which signaled only one additional rate cut for 2026. Some investors took profits or rebalanced their portfolios heading into the new year, which acted as a modest drag on US stocks. In the final weeks of the quarter, there was some rotation away from artificial intelligence (AI)-driven and mega cap stocks toward small-cap, mid-cap, and value stocks. Within the broad-based Standard & Poor's 500 (S&P 500) Index, the health care sector stood out to the upside for the quarter while the utilities and real estate sectors lagged.

Manulife MPF Aggressive Fund / Manulife MPF Growth Fund / Manulife MPF Stable Fund / Manulife MPF International Equity Fund / Manulife MPF Smart Retirement Fund / Manulife MPF 2025 Retirement Fund / Manulife MPF 2030 Retirement Fund / Manulife MPF 2035 Retirement Fund / Manulife MPF 2040 Retirement Fund / Manulife MPF 2045 Retirement Fund / Manulife MPF Retirement Income Fund

- We expect a clearer macro picture and better growth as 2026 progresses. After a turbulent 2025, a combination of gradually easier monetary policy, targeted fiscal support, and businesses adapting to new trade and policy regimes should improve risk sentiment in H2. Near term, volatility is likely to persist as markets digest still-sticky inflation, pockets of labor market cooling, and uncertainty around policy sequencing under the second Trump administration. Our base case remains constructive: inflation moderates toward targets, policy rates drift lower over time, and earnings growth proves resilient—albeit uneven across regions and sectors. Geopolitical fragmentation, the artificial intelligence (AI) trade debate, energy transition, and a new US Federal Reserve (Fed) composition will likely keep uncertainty indicators high throughout 2026.
- In developed markets, we expect an orderly slowdown and stronger finish. The US starts 2026 soft but should reaccelerate as the lagged effects of prior easing and fiscal measures (e.g., capex amortization, corporate tax reductions, and household rebates) take hold—potentially broadening investment beyond AI infrastructure. The euro area's cyclical rebound likely extends, with upside risk from pro-growth reforms and German-led stimulus, offset by France's political/fiscal headwinds and slower external demand. The UK remains in a stagflationary mix—below-trend growth and sticky services inflation—though easier policy helps at the margin. Japan continues its modest recovery with inflation trending toward 2% and supportive wage growth. In emerging markets, fundamentals improve as global manufacturing and trade gradually recover, the USD weakens, and supply chains adapt. China's growth looks imbalanced: external resilience contrasts with soft domestic demand and property-sector adjustment. A supportive People's Bank of China (PBoC) policy and potential front-loaded fiscal measures should help anchor a ~5% target, but overcapacity and lingering deflationary impulses remain watchpoints. Across emerging markets, domestic-demand-led economies are better placed than export-heavy peers in early 2026.
- We still anticipate the US Fed cutting two to three times in 2026, with an eventual path toward ~3% by the year-end—balancing still-too-high inflation (moderating but above trend) against a cooling labor market. Leadership transition as Chair Powell's term winds down in Q2 2026 adds uncertainty but institutional independence should ultimately be preserved. The European Central Bank (ECB) appears at/near neutral and likely on hold through most of 2026 amid inflation near target and stabilizing activity. The PBoC is similarly cautious. The Bank of England (BoE) faces a difficult trade-off—strengthening employment versus sticky inflation—and we expect a gradual glide path toward neutral (around 3%) into early 2027. Japan is an outlier: policy normalization continues, with gradual hikes and a flatter curve as rates move toward neutral. In emerging markets, most easing cycles are near completion.
- Inflation has broadly normalized, but stickier core and improving growth argue for a measured pace of cuts, conditional on foreign exchange stability and external financing. Overall, the lagged impact of prior easing should support emerging markets growth through 2026.
- Fiscal policy is becoming an important tool for governments to support growth. In the US, the One Big Beautiful Bill's corporate incentives (full capex amortization and lower statutory rates) and household rebates should support investment and consumption, even as longer-term deficit dynamics warrant vigilance. Europe leans on structural reforms and infrastructure—Germany's expansionary stance is a tailwind—while France's consolidation could weigh on growth. Japan has unveiled its largest post-COVID stimulus, reinforcing recovery but intensifying debt-sustainability scrutiny. China is likely to front-load support—both monetary and fiscal—to kickstart 2026, yet durable transmission to households remains the key.

本支出分攤及較低法定稅率)與住戶補貼應可支持投資與消費。歐洲側重於結構性改革與基建。德國的擴張性立場構成利好因素，而法國的財政整合則可能會拖累增長。日本推出後疫情時期規模最大的刺激方案，雖有助加強經濟復甦，但亦加深市場對其債務可持續性的審視。中國或將提前於 2026 年初實施貨幣與財政支持政策，惟政策效果能否持續傳導至家庭層面仍是關鍵。

- 展望未來，在財政支出、逐步減息及對人工智能等生產力主題的持續投資的支持下，企業盈利仍然穩健，且預期環球增長將保持穩定。因此相比固定收益，我們將略為對股票持偏高配置。主要風險包括估值偏高、通脹及地緣政治不確定性。人工智能仍是結構性增長動力，而美國股市則受惠於大型科技股公司，以及對數據中心、半導體與雲端基建的龐大投資。儘管相關技術公司的股價上升，但軟件與醫療保健領域的實際應用仍在發展階段，且聚焦人工智能的企業的債務水平偏高，需保持審慎。然而，已獲驗證的人工智能受惠企業具備穩健的基本因素與高投資資本回報，支持看好創新推動增長的看法。與此同時，環球機遇不斷擴展，加上區域性利好因素（包括美元走弱，以及歐洲與亞洲的宏觀環境改善），進一步支持分散投資股票持倉的策略。歐洲經濟復甦、財政刺激措施及估值吸引構成利好背景，而亞洲則在製造業與科技出口型經濟體中提供具吸引力的機遇。南韓與台灣在技術領先與政策支持方面表現突出，而初步跡象顯示市場對中國正形成更積極的戰術性觀點。我們仍對固定收益持偏低配置，並看好短存續期的持倉，因政府債務高企及通脹膠着均令長期利率出現波動。信貸方面，息差收窄及發行活躍令價格發生調整的緩衝空間有限。

宏利 MPF 富達增長基金 / 宏利 MPF 富達平穩增長基金

- 環球股市於季內錄得正回報。儘管美國政府短暫暫停帶來不明朗因素，但公司業績表現強勁，加上人工智能熱潮，以及中美貿易緊張局勢緩和，有助提振投資氣氛，帶動市場初期上揚。其後，在人工智能基建開支高企及人工智能股票估值過高的情況下，出現由人工智能股引發的拋售潮，促使投資者重新評估企業盈利能力，市場動力有所轉弱。之後，隨著市場對聯儲局 12 月減息的預期升溫（聯儲局最終亦如期減息），為市場提供支持。英國及歐洲股市表現出色，受惠於穩定的宏觀經濟環境，以及有利的當地政策支持。日本首相高市早苗在 10 月份就任，並在 11 月宣布大規模財政刺激措施，刺激日本股市揚升。與此同時，美國及新興市場亦報升。行業方面，健康護理業表現領先，房地產業則表現落後。除德國主權債券外，環球固定收益市場在季內大致錄得正回報。市場表現主要由美國放寬貨幣政策所帶動，因為勞工數據疲弱和失業率上升，促使聯儲局在 9 月至 12 月期間三度減息，支持債券市場錄得自 2020 年以來最強勁的年度回報。鑑於財政憂慮持續（包括美國財赤高企），長債持續波動。歐洲主權債券表現遜於美國同類債券，其中德國政府債券受財政相關發展拖累，而法國債券息差則因政治不明朗而擴闊。在通脹放緩及供應前景回穩的支持下，英國金邊債券相對強韌。日本央行在 12 月加息，導致日本債券出現拋售。投資者需求穩定，支持信貸市場保持強韌，高收益債券表現優於投資級別債券。

宏利 MPF 核心累積基金 / 宏利 MPF 65 歲後基金

- 全球股市於 2025 年第四季錄得正回報，惟其間投資者密切注視以人工智能為重點的公司估值高企，令市場間歇出現波動。儘管存在憂慮，但企業盈利穩健及市場對 2026 年經濟增長預期感到樂觀，帶動多項主要指數創下歷史新高。市場情緒樂觀，人工智能主導經濟擴張、利率趨於溫和，以及環球經濟強韌均帶來支持。值得注意的是，市場預期盈利增長將由科技擴展至其他行業，反映不同行業的市場參與度有所擴大。期內，非美國股市重拾領先表現，支持因素包括估值更具吸引力及美元走弱帶來利好因素。
- 美國方面，聯儲局在年內第三度減息，但措辭較以往強硬，主要源於勞工市場狀況走弱。儘管部分經濟指標顯示經濟放緩，但前瞻性指標（包括亞特蘭大聯邦儲備銀行的 GDPNow）依然強勁，使投資氣氛保持正面，並反映經濟仍具韌性。
- 歐洲股市受惠於多項利好因素。通脹壓力緩和，加上市場預期歐洲央行將進一步減息，創造出有利的貨幣環境。貿易關係改善和相對估值具吸引力，令歐洲成為環球資金愈趨看好的投資目的地，投資者因而轉向歐洲市場以把握價值機會。
- 日本的情況較微妙，當地通脹持續高於日本央行的目標，消費物價指數數據促使利率上調至 0.75%，與大部分其他央行維持寬鬆立場明顯有別。然而，受持續推進的企業管治改革、政府主導的經濟增長措施，以及正面的盈利報告支持，日本股市表現出色。高市早苗當選首相進一步提振投資者信心，市場憧憬其將實施擴張性財政政策，以維持經濟動力並帶動市場持續上行。
- 從行業角度來看，健康護理、材料及通訊服務在季內表現最佳，房地產、非必需消費品及資訊科技則表現落後，反映投資者在經濟環境不斷變化的情況下，重新調整其投資重點。

- Looking ahead, we are modestly overweight equities versus fixed income as corporate earnings remain resilient, and global growth is expected to hold steady, supported by fiscal spending, gradual rate cuts, and ongoing investment in productivity themes such as AI. Key risks include high valuations, inflation, and geopolitical uncertainty. AI remains a structural growth driver, with US equity markets supported by large-cap tech and heavy investment in data centers, semiconductors, and cloud infrastructure. While enablers have led gains, adoption in software and healthcare is still developing, and elevated debt among AI-focused firms warrants caution. Nonetheless, strong fundamentals among proven AI beneficiaries and high return on invested capital support a constructive view on innovation-led growth. At the same time, broadening global opportunities and regional tailwinds—including a weaker US dollar and improving macro conditions in Europe and Asia—reinforce the case for diversified equity exposure. Europe's recovery, fiscal stimulus, and attractive valuations create a supportive backdrop, while Asia offers compelling opportunities in manufacturing and tech-export economies. South Korea and Taiwan stand out on technology leadership and policy support, and early signs point to a more constructive tactical view on China. We remain underweight fixed income, favoring short duration exposures as elevated government debts and sticky inflation make long-end yields volatile. In credit, tight spreads and robust issuance leave little cushion for repricing.

Manulife MPF Fidelity Growth Fund / Manulife MPF Fidelity Stable Growth Fund

- Global equities delivered positive returns over the quarter. Early gains were driven by a strong earnings season, enthusiasm around artificial intelligence (AI) and easing US-China trade tensions, which lifted sentiment despite uncertainty from a temporary US government shutdown. Momentum later weakened as an AI-led sell-off prompted investors to reassess profitability amid high spending on AI infrastructure and stretched valuations of AI stocks. Markets later found support as expectations grew for a December Federal Reserve (Fed) rate cut, which ultimately materialised. UK and European equities outperformed on the back of a stable macro backdrop and supportive domestic policies. Japanese equities rose after Sanae Takaichi became prime minister in October and announced a sizeable fiscal stimulus in November. Meanwhile, US and emerging markets also gained. At a sectoral level, healthcare led the gains, while real estate lagged. Global fixed income markets delivered largely positive returns over the quarter, except for German sovereign bonds. Performance was driven by easing US monetary policy, as weak labour data and rising unemployment prompted the Fed to implement three rate cuts between September and December, supporting the strongest annual bond returns since 2020. Volatility persisted at the long end of the yield curve amid ongoing fiscal concerns, including elevated US deficits. European sovereigns underperformed US peers, with German government bonds (Bunds) pressured by fiscal developments, while French spreads widened on political uncertainty. UK gilts were comparatively resilient, supported by moderating inflation and a stabilising supply outlook. Japanese bonds saw sell offs as the Bank of Japan raised rates in December. Credit markets remained resilient supported by steady investor demand, with high-yield outperforming investment-grade.

Manulife MPF Core Accumulation Fund / Manulife MPF Age 65 Plus Fund

- During the fourth quarter of 2025, global equity markets delivered positive returns, though intermittent volatility occurred as investors scrutinized elevated valuations among AI-focused companies. Despite these concerns, major indices reached all-time highs, propelled by solid corporate earnings and optimistic growth expectations for 2026. The bullish sentiment drew support from AI-driven expansion, moderating interest rates, and resilient global economies. Notably, earnings growth is projected to broaden beyond the technology sector, signaling wider market participation across industries. Non-U.S. equities resumed their outperformance during the period, benefiting from more attractive valuations and tailwinds from a weakening U.S. dollar.
- In the United States, the Federal Reserve adopted a more hawkish tone in its communications while delivering a third rate cut for the year, driven primarily by softening labor market conditions. While certain economic indicators suggest deceleration, forward-looking metrics—including the Atlanta Fed's GDPNow—remained robust, sustaining positive investor sentiment and suggesting the economy retains underlying strength.
- European equities benefited from several favorable factors. Easing inflation pressures combined with expectations for additional ECB rate cuts created a supportive monetary backdrop. Improving trade relations and compelling relative valuations positioned the region as an increasingly attractive destination for global capital, with investors rotating into European markets to capture value opportunities.
- Japan presented a more nuanced picture as inflation remained persistently above Bank of Japan targets, with CPI readings prompting a rate increase to 0.75%—a notable divergence from the accommodative stance maintained by most other central banks. Nevertheless, Japanese equities performed well, supported by ongoing corporate governance reforms, government-led growth initiatives, and positive earnings reports. The election of Prime Minister Sanae Takaichi further supported investor confidence, as markets anticipate her implementation of expansionary fiscal policies to sustain economic momentum and drive continued appreciation.
- From a sector perspective, healthcare, materials, and communication services were the top performers during the quarter, while real estate, consumer discretionary, and information technology lagged—a divergence reflecting shifting investor priorities amid evolving economic crosscurrents.

宏利 MPF 人民幣債券基金

- 我們的基準觀點是中國人民銀行（PBoC）目前將維持利率不變，但偏向寬鬆，重點在於保護銀行的淨息差（NIM）並應對各項限制。倘若（1）房地產市場低迷加劇、（2）再通脹趨勢發生逆轉、（3）外部衝擊影響出口，或（4）人民幣匯率過度升值，則 2026 年年中可能會減息 10 個基點。利率仍面臨熊市趨陡化壓力，而由於年底季節性因素推動人民幣加速升值，短期資金進一步寬鬆。儘管存續期供應壓力沉重，但在中國人民銀行釋出鷹派訊號且中國政府債券購買規模有限的影響下，10 年期中國政府債券孳息率在 12 月呈熊市陡峭。
- 我們預期 10 年期中國政府債券孳息率將在 2026 年上半年維持於 1.70%-2.00% 區間，且仍存陡峭壓力。展望 2026 年，我們預期中國人民銀行將主要購入收益率曲線中段的中國政府債券，以緩和可能擾亂市場的收益率波動。資金條件仍然充裕。市場正密切關注中國人民銀行的公開市場操作與流動性操作會否出現重大調整，以應對中國政府債券及地方政府債券的大規模存續期供應。貨幣方面，預期企業資金回流將在農曆新年前進一步增加。我們預期季節性走強或將推動人民幣匯率在農曆新年前升破 6.90 關口。與美元及一籃子貨幣相比，其實際有效匯率仍被低估，反映國內通縮與環球通脹之間的差異。特朗普總統計劃於四月訪華並舉行峰會，被視為關鍵里程碑。

宏利 MPF 可持續亞太債券基金

- 在穩健的經濟基本因素、具吸引力的估值及亞洲本地市場與貨幣勢的支持下，亞洲固定收益於 2025 年錄得強勁回報，我們預期此正面走勢將延續至 2026 年。與美國及歐洲同類債券相比，無論是投資級別債券或高收益債券，亞洲信貸的總綜合收益率持續較高。在來年關稅、地緣政治緊張與環球增長放緩等宏觀挑戰下，可為投資者提供額外緩衝，保障其免受利率與利差波動的影響。儘管 2025 年總估值與信貸利差持續收窄，但持續的宏觀不利因素與個別事件消息將繼續導致該資產類別內的收益分化，為投資者帶來透過精心審慎的證券選擇以創造超額回報的機會。區內穩健的經濟增長，加上中國及印度等個別市場的國內政策支持，進一步鞏固基本因素，不僅為投資者創造分散配置機會，亦有助緩解環球不利因素對其投資組合的影響。
- 在通脹受控與勞動力市場走弱的背景下，市場預期聯儲局將於 2026 年進一步減息，亞洲美元債券有望繼續受惠於此有利的貨幣環境。較低的美國利率或將重塑環球美元固定收益資產類別的相對吸引力。隨著收益率恢復正常，投資者或需承擔更多風險（無論是存續期、信貸還是貨幣風險），以獲取更高的預期回報。較低的利率環境亦利好數年來一直淡靜的亞洲美元債券的一級發行量，發行人有望以更低的融資成本重返市場進行再融資。這將利好信貸狀況與基本因素，亦可能重振亞洲美元債券市場的增長。

宏利 MPF 國際債券基金

- 年底過後，港元資金依然充裕，利率亦見整固。12 月聯邦公開市場委員會（FOMC）決定減息 25 個基點，表明聯儲局維持其依賴數據的決策方針。市場正等待政策進一步明朗，以及特朗普總統任命新任聯儲局主席。港元匯價保持穩定，而港股則在新一年開局表現堅挺。在利差擴大的背景下，港元即期匯率在 7.7935 水平，處於 7.75-7.85 的聯繫匯率區間。港元流動性孳息率約處於 2.75%-3.00% 區間。香港金融管理局（金管局）未有採取進一步干預，12 月底香港銀行體系總結餘穩定在 540 億港元水平。隨著聯儲局預期將繼續逐步放寬政策，目標在 2026 年中期將利率降至 3% 左右的偏低水平，我們預期 3 個月港元利率將趨向較美國利率低 25-50 個基點。我們認為即使宏觀不確定性與美國利率波動加劇，港元利率與現金債券仍有望保持較低波幅。

Manulife MPF RMB Bond Fund

- Our baseline view is that the People's Bank of China (PBoC) will hold rates for now, with an easing bias, focusing on protecting banks' net interest margins (NIM) and managing constraints. A rate cut of 10 basis points (bps) in mid-2026 could potentially be seen if (1) the property market slump worsens, (2) the deflation process reverses, (3) external shocks impact exports, or (4) the CNY overshoots. Rates remain under bear steepening pressure, with front-end funding loosening further as CNY appreciation accelerates due to the year-end seasonality. The 10-year CGB (China government bond) yield bear steepened driven by PBoC's hawkish signals and limited CGB purchases in December despite heavy duration supply pressure.
- We expect the 10-year CGB to remain in the 1.70-2.00% range into 1H 2026 with steepening pressure. For 2026, we expect the PBoC to purchase CGBs mainly in the belly part of the curve to help smooth out disruptive yield movement. Funding conditions remain ample. The market is watching for any significant shift in the PBoC open market operations and liquidity operations to accommodate heavy CGB/LGB duration supply. On the currency front, corporate repatriation is expected to increase further into the Chinese New Year. We expect the seasonal strength is likely to push the CNY below 6.90 before the Chinese New Year. Its real effective exchange rate remains undervalued compared to both the USD and the basket, reflecting domestic deflation versus global inflation. President Trump's planned visit in April and summit in China are seen as a key milestone.

Manulife MPF Sustainable Pacific Asia Bond Fund

- Asian fixed income delivered strong returns in 2025 supported by solid economic fundamentals, attractive valuations, and gains in Asian local markets and currencies, and we expect this positive momentum to continue in 2026. Asian credits continue to offer higher aggregate all-in yields compared to their US and European counterparts, whether investment grade or high yield, providing an additional buffer to protect investors from interest rate and spread volatility in the year ahead amid macroeconomic challenges including tariffs, geopolitical tensions, and global growth slowdown. While aggregate valuations and credit spreads have continued to tighten over the course of 2025, persisting macro headwinds and idiosyncratic headlines will continue to drive return dispersion within the asset class, giving investors the opportunity to generate alpha through careful and prudent security selection. Fundamentals are further supported by solid economic growth within the region and domestic policy support in selective markets, such as China and India, creating diversification opportunities for investors and helping to mitigate the impact from global headwinds on their portfolios.
- With the market expecting the US Federal Reserve (Fed) to further cut interest rates in 2026 on the back of controlled inflation and weaker labor markets, Asian dollar credits are poised to continue benefiting from the supportive monetary backdrop. Lower US interest rates will likely reset the relative attractiveness of global USD fixed income asset classes and as yields normalize, investors will likely need to take on more risk – weather duration, credit, or currency – to achieve higher expected returns. A lower interest rate environment is also supportive of primary issuances in the Asian dollar space, which has been muted for a few years, with issuers potentially returning to the market to refinance at lower funding costs. This would be a positive catalyst for credit profiles and fundamentals and could also reignite growth in the Asian dollar bond space.

Manulife MPF International Bond Fund

- HKD funding remains flush and rates consolidated after the year-end. The December Federal Open Market Committee (FOMC) delivered a rate cut of 25 basis points (bps), signaling the US Federal Reserve's (Fed) data-dependent approach. Market is awaiting policy clarification and the appointment of the new US Fed chair by President Trump. The HKD was stable with Hong Kong equities opening the new year on a firm note. HKD spot rate came at 7.7935 against the dollar within the 7.75-7.85 peg amid widening carry. HKD liquidity yields settled around the 2.75-3.00% area. The Hong Kong Monetary Authority (HKMA) made no further interventions with Hong Kong's aggregate balance stable at HKD54 billion in the end of December. We expect 3-month HKD rates to settle towards 25-50bps below US rates as the US Fed is expected to continue its gradual easing path towards low 3% by mid 2026. We believe HKD rates and cash bonds are likely to maintain low volatility, even as macro uncertainty and US rate volatility pick up.

Manulife MPF Hong Kong Bond Fund / Manulife MPF Interest Fund / Manulife MPF Conservative Fund

- 1 風險指標是以年度標準差表示，數據是根據過往三年之按月回報率計算，並準確至小數後兩個位。一般來說，年度標準差數值越大，成分基金的風險／波幅也將相對較高。成分基金的風險指標會於該基金推出三年後提供。

The Risk Indicator shows the annualized standard deviation based on the monthly rates of return of the fund over the past 3 years, and correct to 2 decimal places. Generally, the greater the annualized standard deviation, the more volatile/risky the constituent fund. The Risk Indicator for the constituent fund will be available 3 years after its launch date.

- 2 成分基金表現是以港元的每單位資產淨值計算，不包括每單位派息，並已扣除所有收費。

Constituent fund performance is calculated on the basis of NAV (net asset value) -to-NAV in Hong Kong Dollar, does not include the dividend per unit, and is net of all charges.

- 3 由於進位數關係，總額可能並不相等於 100%。

Due to rounding, the total may not be equal to 100%.

- 4 每個成分基金均須根據該成分基金的最新風險指標，劃分為以下七個風險級別的其中一個風險級別。風險級別由強制性公積金計劃管理局（「積金局」）根據強積金投資基金披露守則制定，而該風險級別並未經香港證券及期貨事務監察委員會（「證監會」）審閱或認許。

A risk class is to be assigned to each constituent fund according to the seven-point risk classification below based on the latest risk indicator of the constituent fund. The risk class is prescribed by the Mandatory Provident Fund Schemes Authority ("MPFA") according to the Code on Disclosure for MPF Investment Funds and the risk class has not been reviewed or endorsed by the Securities and Futures Commission ("SFC").

風險級別 Risk Class		1	2	3	4	5	6	7
風險指標 Risk Indicator	相等或以上 Equal or above	0.0%	0.5%	2.0%	5.0%	10.0%	15.0%	25.0%
	少於 Less than	0.5%	2.0%	5.0%	10.0%	15.0%	25.0%	

- 5 平均成本法回報的計算是在指定期內將最終資產淨值比較總投資金額得出；方法是在每月最後一個交易日定額投資同一基金內，以當時基金價格（每單位資產淨值）購入適量基金單位，總投資金額則等於在指定期間內每月供款的總額；而最終資產淨值則由在指定期內所購得的基金單位總數乘以該期間最後一個交易日的基金價格（每單位資產淨值）而得出。平均成本法之累積回報及每年平均回報均提供以作參考，惟數據僅作舉例用途。資料來源：晨星及宏利人壽保險（國際）有限公司（只提供宏利 MPF 利息基金）。

The Dollar Cost Averaging Return is calculated by comparing the total contributed amount over the specified period with the final NAV (net asset value). A constant amount is used to purchase fund units at the prevailing fund price (NAV per unit) on the last trading day of every month over the specified period. The total contributed amount is the sum of all such monthly contributions. The final NAV is arrived by multiplying the total units cumulated over the specified period with the fund price (NAV per unit) on the last trading day of such period. The cumulative and annualized returns of Dollar Cost Averaging are provided for reference, and the figures are for illustrative purposes only. Source: Morningstar and Manulife (International) Limited (for Manulife MPF Interest Fund only).

- 6 "十大資產" 內列出基金投資組合內的十大證券（不包括現金及其他）。基金投資組合可能持有少於十項證券。

"Top 10 portfolio holdings" lists out the largest 10 security holdings (i.e. not including cash and others) of the fund portfolio. The fund portfolio may have less than 10 security holdings.

- 7 「核心累積基金參考組合」及「65 歲後基金參考組合」乃強積金業界建立之參考組合，並由香港投資基金公會公布，旨在就預設投資策略成分基金（即核心累積基金與 65 歲後基金）各自的表現及資產分配提供一套共同的參考依據。有關參考組合將定期進行檢討並可能有所更改。更多及最新有關參考組合的資料，請瀏覽香港投資基金公會網站 www.hkifa.com.hk。

"Core Accumulation Fund ("CAF") Reference Portfolio" and "Age 65 Plus Fund ("A65F") Reference Portfolio" are the MPF industry developed reference portfolio and published by the Hong Kong Investment Funds Association for the purpose of providing a common reference point for performance and asset allocation of the DIS constituent funds, i.e. the CAF and A65F respectively. The reference portfolio is subject to review on regular basis and may change. For more and the latest information about the reference portfolio, please visit the website of the Hong Kong Investment Funds Association at www.hkifa.com.hk.

- 8 債券通常附有年息及債券到期日，而年息按債券票面值的某一個百分比計算（稱為「票面利率」）。

A bond usually has an annual interest rate and the maturity date, the annual interest rate as a percentage of the par value (or a "coupon rate").

- † 截至 2025 年 3 月 31 日止財政年度的基金開支比率。成分基金的基金開支比率會於基金概覽匯報日與基金的成立日期相隔兩年及以後提供。

Fund expense ratio for financial period ended March 31, 2025. Fund Expense Ratio for the constituent fund will be shown after the period between the reporting date of the fund fact sheet and the launch date of the fund reaches 2 years and thereafter.

- ^ 強積金保守基金的收費可 (i) 透過扣除資產收取；或 (ii) 透過扣除成員帳戶中的單位收取。而宏利 MPF 保守基金採用收費方式 (i)，故該成分基金任何列出之單位價格／資產淨值／基金表現已反映收費之影響。

Fees and charges of a MPF conservative fund can be deducted from either (i) the assets of the fund or (ii) members' account by way of unit deduction. The Manulife MPF Conservative Fund uses method (i) and, therefore, any unit prices/NAV/fund performance quoted for the constituent fund have incorporated the impact of fees and charges.

- # 過往之公布利率已經包含保證訂明儲蓄利率。由 2005 年 2 月 1 日起，公布利率內的訂明儲蓄利率保證經已取消。而利息基金的基金表現是以相關的公布利率按月複式計算。

The historical rates declared have already taken into account of the guaranteed prescribed savings rates. Effective from February 1, 2005, the guarantee on prescribed savings rates for the declared rates has been removed. The Fund Performance of Interest Fund is derived from relevant declared rates compounded monthly.

- ** 宏利 MPF 穩健基金（「穩健基金」）：宏利人壽保險（國際）有限公司為保證人。每月保證利率相等於積金局公布的訂明儲蓄利率。符合保證的規定條件視乎：一、成員於五十五歲生日前的供款須繳清並完成交收程序。二、預定事件（成員須持有本成分基金直至六十五歲正常退休年齡、或於退休前不幸身故、或完全喪失行為能力）或患上末期疾病，方可獲利息保證。若在發生預定事件或患上末期疾病之前贖回供款，則成員須完全承擔成分基金資產價值波動的風險。保證只會於在因發生預定事件而作出提取時，在相關帳戶及其所有附屬帳戶以一筆過形式提供一次，保證亦會在因末期疾病情況而作出提取時在相關帳戶／附屬帳戶提供。當成員年屆六十五歲正常退休年齡（其中一項預定事件）以分期形式提取將有特別安排，保證提供方式如同以一筆過形式提取。此後，穩健基金的保證將不再提供予該成員提出申索的帳戶。有關保證的詳情，請參閱強積金計劃說明書。

Manulife MPF Stable Fund (the "Stable Fund"): Manulife (International) Limited is the guarantor. Investors are provided with an interest guarantee for each month equal to the prescribed savings rate published by the MPFA. The guarantee is subject to: 1) the contribution must be received in cleared funds before the member's 55th birthday; and 2) occurrence of pre-determined events (members must hold their investment in this constituent fund to normal retirement at the age of 65, or in case of death, or total incapacitation prior to retirement) or in the event of terminal illness. Redemption effected other than the occurrence of the pre-determined events or in the event of terminal illness is fully exposed to fluctuation in the value of the constituent fund's underlying assets. The guarantee will be provided once and only in a lump sum applicable to the relevant account and all its sub-accounts when withdrawal is effected as a result of the predetermined events, and will be provided with respect to the relevant account/sub-account withdrawn in the event of terminal illness. There will be special arrangement in case of withdrawal by instalments as a result of the member attaining his normal retirement age of 65 (one of the pre-determined events); the guarantee will be provided as if a lump sum withdrawal is taken place. Thereafter, no further guarantee will be available from the Stable Fund for the account being claimed by the member. Please refer to the MPF Scheme Brochure for detailed features of the guarantee.

- *** 宏利 MPF 利息基金是宏利環球精選（強積金）計劃的一個非單位化的債券基金，備有本金保證並以每月為成員提供按相等於或高於積金局所公布的訂明儲蓄利率計算的利息為目標。實際利率由宏利公積金信託有限公司根據宏利人壽保險（國際）有限公司的建議，於月底酌情公布。有關信貸風險及保證特點的詳情，請參閱強積金計劃說明書的第 3.4.1 條（宏利 MPF 利息基金（「利息基金」））以及第 7.2.4(c) 條（宏利 MPF 利息基金）。宏利人壽保險（國際）有限公司為保證人。宏利 MPF 利息基金的保證特點會受保證人的信貸風險影響。記入並投資於利息基金的派息，因而受到有關風險的影響，例如保證人的信貸風險，以及需收取適用於利息基金的費用及收費。請參閱強積金計劃說明書第 3.4.1 條（宏利 MPF 利息基金（「利息基金」））有關利息基金的詳情，尤其投資目標及風險。

Manulife MPF Interest Fund is a non-unitized bond fund of the Manulife Global Select (MPF) Scheme that provides a capital guarantee and aims to provide members with interest each month at a rate that equals to or exceeds the prescribed savings rate published by the Mandatory Provident Fund Schemes Authority. The actual interest rate shall be declared by Manulife Provident Funds Trust Company Limited at its sole discretion at the recommendation of Manulife (International) Limited at the end of the month. Please refer to sections 3.4.1 (Manulife MPF Interest Fund (the "Interest Fund")) and 7.2.4(c) (Manulife MPF Interest Fund) of the MPF Scheme Brochure for details of the credit risks and guarantee features. Manulife (International) Limited is the guarantor. The guarantee features of Manulife MPF Interest Fund (the "Interest Fund") are subject to the credit risks of the guarantor. Dividends are credited to and invested in the Interest Fund which is subject to relevant risks such as the credit risks of the guarantor as well as fees and charges applicable to the Interest Fund. Please refer to sections 3.4.1 (Manulife MPF Interest Fund (the "Interest Fund")) of MPF Scheme Brochure for a detailed description of the Interest Fund, particularly the investment objective and risks.

▲ 有關成分基金之一、三、五及十年的表現將於成分基金推出一、三、五及十年後提供。

The 1-year, 3-year, 5-year & 10-year performance of the constituent fund will be available 1 year, 3 years, 5 years and 10 years respectively after the launch date.

]] 恒生指數（總回報）乃由恒生指數有限公司根據恒生資訊服務有限公司特許協議發佈及編製之「股息累計指數」計算，股價變動及股息收益兩個因素將包括在內。由 2023 年 10 月 3 日起，有關指數已經改為恒指 ESG 增強指數。

The Hang Seng Index (Total Return) is published and compiled according to the "Total Return Index" by Hang Seng Indexes Company Limited pursuant to a licence from Hang Seng Data Services Limited. The index will take account of both price changes and dividend payments. From October 3, 2023, the index has been changed to HSI ESG Enhanced Index.

ψ 宏利 MPF 退休收益基金（「退休收益基金」）旨在定期分發派息。現時，退休收益基金擬定每月分發派息，並於 2020 年 9 月 21 日推出日期後的第七個月開始（或首層核准基金的投資經理如認為合適而建議的更早期）。在每曆年開始分發派息的首個月之前，該曆年每月份的某一交易日將預定為記錄日（「記錄日」）。於緊隨記錄日後的下一個交易日（「除息日」），退休收益基金每單位資產淨值將降低或調整，以反映分發派息。每曆年之每月份預定的記錄日及除息日的時間表將於該曆年首個記錄日前，在實際可行的情況下盡快於網站 www.manulife.com.hk 備妥。若當天並非交易日，將順延至下一個交易日進行。

Manulife MPF Retirement Income Fund (the "Retirement Income Fund") aims to distribute dividend on a regular basis. Currently, it is intended that the Retirement Income Fund will distribute dividend on a monthly basis starting from the seventh month (or earlier as advised by the investment manager of the underlying first level APIF if it considers appropriate) after the launch date of September 21, 2020. Prior to the first month commencing distribution of dividend in each calendar year, a dealing day of each month for that calendar year will be pre-determined as the record date ("record date"). The NAV per unit of the Retirement Income Fund on the next dealing day immediately following the record date ("ex-dividend date") will be decreased or adjusted to reflect the distribution of dividend. The schedule of the pre-determined record dates and ex-dividend dates of each month for each calendar year will be made available at www.manulife.com.hk as soon as practicable prior to the first record date of that calendar year. If a date falls on a non-dealing day, then it will be carried out on the next dealing day.

派息金額將根據成員於記錄日的年齡，分配至相關成員的帳戶／附屬帳戶並再投資於退休收益基金或投資於利息基金。於記錄日當天為 65 歲以下的成員，派息將再投資以認購退休收益基金單位；而於記錄日當天年屆 65 歲或以上的成員，派息將記入利息基金，因而受到有關風險的影響，例如保證人的信貸風險，以及需收取適用於利息基金的費用及收費。

The amount of dividend will be allocated to the account/sub-account of the relevant Members and reinvested in either the Retirement Income Fund or invested in the Interest Fund based on the Member's age as at the record date. For member below age 65 as at the record date, dividend will be reinvested to subscribe units of the Retirement Income Fund. For Member at or above age 65 as at the record date, dividend will be credited to the Interest Fund, which will be subject to relevant risks such as the credit risks of the guarantor as well as fees and charges applicable to the Interest Fund.

「可分派收入淨額」指有關股份類別應佔的淨投資收入（即股息收入及／或利息收入並已扣除費用及開支），或可包括已變現之淨收益（即：已變現之收益減已變現之虧損）（如有）。可分派收入淨額並不包括未變現之淨收益。

Net Distributable Income (NDI) means the net investment income (i.e. dividend income and/or interest income net of fees and expenses) attributable to the relevant share class and may include net realised gains (i.e. realised gains minus realised loss), if any. NDI does not include net unrealised gains.

年度化派息率 = $[(1 + \text{每單位派息} / \text{除息日資產淨值})^{\text{每年派息次數}} - 1]$ ，年度化派息率乃基於最近一次相關派息計算及假設收益再撥作投資，可能高於或低過實際全年派息率。

Annualised yield = $[(1 + \text{distribution per unit} / \text{ex-dividend NAV})^{\text{distribution frequency}} - 1]$, the annualised dividend yield is calculated based on the latest relevant dividend distribution with dividend reinvested, and may be higher or lower than the actual annual dividend yield.

請注意，正派息率並不代表正回報。退休收益基金就資本或投資回報或派息金額／派息率概不提供任何保證，並且不擔保派息頻次，而派息金額／派息率亦可能出現波動。派息可從基金的已變現之資本增值、資本及／或總收入中撥付，同時亦可從資本中記入／支付全部或部分費用、收費及開支，以致可作為派息的可分派收入增加。派息從資本中及／或實際上從資本中撥付代表提取部分原有投資或任何歸因於原有投資的資本增值。分發派息會導致退休收益基金於除息日的每單位資產淨值降低或調整。儘管上文所述，派息將會分配至成員的帳戶／附屬帳戶。投資者不應只根據上表載有資料而作出任何投資決定。有關詳情，請參閱強積金計劃說明書。

Please note that a positive dividend yield does not imply a positive return. The Retirement Income Fund does not provide any guarantee on the capital or investment return or dividend amount/yield. There is no assurance on the dividend distribution frequency and the dividend amount/yield may fluctuate. Dividends may be paid out of the realized capital gains, capital and/or gross income while charging/paying all or part of the fees, charges and expenses to/out of the capital, resulting in an increase in distributable income available for dividend distribution. Payment of dividends out of capital and/or effectively out of capital represent a withdrawal of part of the original investment or from any capital gains attributable to that original investment. Distribution of dividends will result in an immediate decrease or adjustment in the net asset value per unit of the Retirement Income Fund on the ex-dividend date. Despite the above, dividends will be allocated to members' account/sub-account for investment. Investors should not make any investment decision solely based on information contained in the table above. You should read the MPF Scheme Brochure for further details including risk factors.

警告：基金單位價格可升可跌。所載數據僅供參考而過往的基金表現不能作為日後表現的指標。投資帶有風險。有關計劃詳情，包括風險因素、費用及收費，請參閱強積金計劃說明書。本刊物所載任何資訊不應依賴作為投資建議，或視作代替詳細之投資建議，又或者視為代替個別情況之詳細投資建議。

註：所有圖表及成分基金表現資料皆由相關基金的投資經理提供（除宏利 MPF 利息基金的表現資料由宏利人壽保險（國際）有限公司提供）。所有基金報價均已扣除投資管理費及其他費用。

WARNING：Unit prices may fall as well as rise. The figures are for reference only and past performance is not indicative of future performance. Investment involves risks. Please refer to the MPF Scheme Brochure for details including risk factors, fees and charges of the scheme.
